Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10-5-10 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6, 9-12, 15-21, 24-27, 29-31, 33, 34 and 36-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims are confusing as to intent because there is an apparent contradiction in claim 1 regarding the presence of A groups in the polyester polyol of the claims.

Claim 1 recites that group A4 is a part of the required A1, A2, A3, A4 groups of the listing of A groups, as opposed to A5 which is set apart as being optional. However, in reciting the amounts for A4, "up to 30 mole percent" is used which corresponds closely with the language used in describing the optional A5 group, "up to 7 mole percent". Claims are confusing as to intent because it can not be determined if A4 is intended to be a part of the required A groups or the optional A groups.

Claims 1-6, 9-12, 15-21, 24-27, 29-31, 33, 34 and 36-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims are confusing as to intent because it is not seen how the A groups A1, A2, A3, A4 and optionally A5 which constitute and define the make-up of the hydroxymethyl-containing polyester polyol set forth in the claims can be in the form of a "mixture". The claim language needs to be amended to clarify how the recited A groups are involved in the make-up of the claim components.
